

Nihon Waters K.K.

Company Description

About Waters

From the everyday consumer to scientists in the laboratory, we all rely on accurate information to make critical decisions. Waters Corporation is the world's leading specialty measurement company focused on improving human health and well-being through the application of high-value analytical technologies and industry leading scientific expertise.

Our founder Jim Waters set in motion the idea that we should positively impact our customers, employees, shareholders, and society at every opportunity.

Driven by that ethos for over 60 years, Waters has continually pioneered chromatography, mass spectrometry, and thermal analysis innovations. Whether it's discovering new pharmaceuticals, assuring the safety of the world's food and water supplies, or ensuring the integrity of a chemical entity in production, we are constantly working with our thousands of customers to leave the world better than we found it.
