

Flash Global Logistics Inc.

Company Description

Flash Global Logistics is a leading logistics provider in the critical spare parts industry with its head office in the USA. We primarily service Fortune 500 companies in the high tech, medical and semiconductor sectors. Warehouse services are provided throughout the world with parts being delivered within 2 to 4 hours of order placement. Services are provided through a global network of Agents who are managed through our extensive web based IT system and centralized command centers. For more information visit: www.flashlogistics.com.
