

Degica Co., Ltd.

Company Description

Headquartered in Tokyo, Japan, Degica is a leading provider of Pan-Pacific digital commerce solutions. We build and manage online businesses for software and game publishers, online retailers and distributors who are looking to establish and expanding their business presence in Japan and other Asian markets, as well as all major European countries.

Degica's real-time tracking, multi-channel digital commerce platform supports direct sales and includes extensive reseller networks in the local markets to help maximize revenues and profits while reduce operational costs and risks for companies of all sizes. We proudly provide development, hosting websites and webshops, order tracking, 100% local payment solutions, strategic local marketing and press services, customer support, technical support as well as logistical support for physical product warehousing and deliveries of product sales to consumers.

- Marketing and sales of EU & North American software to Asia including Japan
- International marketing and sales of Japanese manufactures
- Development, sales and design of E-Commerce solutions
