

Viedoc Japan K.K.

Company Description

About the company

Viedoc Technologies develops and markets software solutions for clinical trials and patient registries as SaaS (Software as a Service). The product Viedoc is a modern and future-proof eClinical suite that allows clinical trial sponsors and study sites to easily and securely collect, validate, transmit and analyze clinical study data. Viedoc has been used in more than 5,000 clinical studies in 80 countries with more than 100,000 users worldwide. The goal for organizations using Viedoc (mainly Contract Research Organizations (CRO), pharma, biotech, medtech and consumer health) is to produce health products in a more time and cost-efficient manner.

We want to do our part in contributing to a healthier world with excellence.

Japan is a key market for Viedoc Technologies AB. The affiliate in Japan (Viedoc Japan K.K) has had a rapidly growing business since the start in 2009, focusing on sales, marketing, service, and support.
