

## Amazon Web Services Japan G.K.

---

### Company Description

In 2006, Amazon Web Services (AWS) began offering IT infrastructure services to businesses as web services—now commonly known as cloud computing. Today, AWS provides a highly reliable, scalable, low-cost infrastructure platform in the cloud that powers hundreds of thousands of businesses in 190 countries around the world. As our customers grow their businesses, AWS continues to provide Infrastructure that meets their global requirements, aiming to be the most customer centric company on earth.

The Infrastructure Operations (Data Center) Team is the backbone of AWS, supporting the rapidly growing AWS business and customers 24/7. We are committed to maintain the physical infrastructure of AWS, ensuring the standards for operational performance in the areas of safety, security, availability, productivity, capacity, efficiency, and cost.

As a member of the Infrastructure Operations (Data Center) Team, you will have the chance to work on the most advanced technologies in a DYNAMIC environment with expanding opportunities. If you enjoy working in a strong and close-knit diverse team, Infrastructure Operations (Data Center) Team is the place to be!
