

## Japan High Voltage Cable K.K. (Nexans)

---

### Company Description

#### BRINGS ENERGY TO LIFE

Within Nexans group, **Japan is one of the countries in our North East Asia region besides Greater China (mainland; Hong Kong SAR, Macau SAR and Taiwan).** Nexans has been active in Japan market mainly in marine and Oil and Gas industries where the Japanese EPC are working for projects all over the world.

To meet with the strictest compliances to national and international standards, **Nexans is able to offer product packages among the group's factories to Japanese customers for telecommunications, power cables and accessories for industrial, building or infrastructural markets.** Today, our joint venture factory located in Tokyo Bay offers us a manufacturing platform to serve the worldwide market from Japan.
