

Bystronic Japan

Company Description

Bystronic is a globally leading technology company in the area of sheet metal processing. Our high-quality solutions enable transformation into a productive and sustainable future. The focus is on the automation of the complete material and data flow of the cutting and bending process chain. The intelligent connectivity of our laser cutting systems and pressbrakes with innovative automation, software, and service solutions is the key to comprehensive digitalization in the sheet metal industry.

Our company headquarters are located in Niederönz, Switzerland. Additional development and production locations are in Sulgen (Switzerland), Gotha (Germany), Cazzago San Martino and San Giuliano Milanese (Italy), Tianjin and Shenzhen (China), and Hoffman Estates (USA). We are actively represented by our own sales and service subsidiaries in more than 30 countries and by agents in numerous other countries.

We stand for customer proximity, high-performance innovations, service excellence, and local expertise. As a trusted partner, we aim for long-term collaboration to solidify lasting customer relationships.

Bystronic has over 3,500 employees worldwide at more than 40 locations, and generated a net revenue of CHF 939.3 million in 2021. As of 2021, Bystronic AG is listed on the SIX Swiss Exchange (SIX: BYS).
