

TOKI, Inc

Company Description

We are fortunate to be able to partner up with Japan's best artisans and culture houses to allow our guests to interact directly with these living legends. **The artisans have all been carefully selected** after consulting with experts from each field to ensure that they are the best of the best at what they do.

Through our plans, we provide **exclusive access to the secretive world of Japanese artisan masters, a world to which even Japanese people have no access**. Many of the experiences we offer are not accessible to the public or available anywhere else.

We construct our plans around each of our guest's needs, goals, and schedule, and are available for consultations to help our guests construct the plan that best suits them. **We wish to offer a once-in-a-lifetime experience for visitors to Tokyo**, and we sincerely hope that you will join us.
