

MPM Japan Limited

Company Description

Transform your business through data driven financial services marketing

Unlock the power of your data. Communicate relevant, customer centric information and offers to generate significant revenue.

Our Campaign Factory is an analytical marketing platform which along with our specialised consulting services, can enable cutting edge financial services marketing strategies. These are designed to generate consistently higher returns than traditional marketing programs.

Business:

1. Plan and develop sales programs for financial institutions.
2. Develop and operate infrastructures for financial service products and its marketing.
3. Provide customer analyses, data modeling, and analysis reports corresponding the above mentioned businesses.
