

## ADATA Technology Japan Co., Ltd.

---

### Company Description

#### **The World's Leading Memory Brand**

Founded in May 2001, ADATA Technology Co., Ltd. is committed to providing top-notch memory solutions that enrich the customer's digital life. The company's dedication to integrity and professionalism has made ADATA the leading memory brand with the most award-winning product designs.

Backed by technical expertise, state-of-the-art manufacturing facilities, and premium customer service, ADATA offers complete memory solutions including DRAM modules, USB flash drives, memory cards, solid state drives and portable hard drives.

ADATA understands that professionalism and innovation, as well as the value of its products and services, drive a company's competitiveness in the market. ADATA's devotion to quality requires performing at the highest standards as they relate to ID design, purchasing and supply-chain management (raw materials), manufacturing processes, quality control and testing. Through constant innovation and development of products that exceed customer expectations, ADATA has won many of the most recognized international awards including the National Silver Award of Excellence in Taiwan, Japan's G-MARK (Good Design Award), CES Innovations Award in the U.S., the iF Design award, and the red dot design award in Germany.
