

Core Technology, Inc.

Company Description

Pursuing Innovation with Core Technology Vacuum Solutions

Core Technology is a company that develops and manufactures equipment primarily using vacuum technology. We develop and manufacture all types of vacuum equipment, and have a large delivery record both domestically and internationally.

In the solar cell market, we have developed full-scale mass-production CVD equipment for solar cells that offers low cost and high performance and we have delivered these systems to the world's top-class solar cell manufacturers.

Company Details

Head Office

Japan

Main Business

半導体・太陽電池製造装置の開発、設計、製造 各種真空装置の開発、製造

President

石 龍基

Established

2008年

Number of Employees

11 - 50

URL

<http://www.core-techno.com/>

Offices

Main Office

1070-2 Mokurenji, Iruma-shi
Saitama, Japan, 3580047
