

ITOCHU CHEMICAL FRONTIER Corporation

Company Description

Chemicals Are Our Business

For the future of people's happiness beyond just business and wealth
We will continue to explore and pursue the possibilities of the chemical industry

Two business models that maintain and enhance people's health and cultural life

Our mission is to maintain and enhance people's health and cultural life through the handling of a wide range of chemicals such as pharmaceuticals, fine chemicals and resin raw materials. Since it is sometimes related to people's lives, each employee acts with a high level of ethical consideration and safety. Through these activities, we will fulfill our "responsibility for affluence".
