

## Canadian Academy

---

### Company Description

**Founded in 1913, Canadian Academy is a private, co-educational day and boarding international school that provides an inspirational learning experience.**

We are an IBO World School offering all three of the Primary Years, Middle Years and Diploma programmes. Canadian Academy blends the local Japanese culture with elements from around the world - our students come from over 40 different countries. Canadian Academy's dormitory students range from 9th to 12th grade, and come from North America, Europe and Asia. Our campus is located in Kobe, Japan on Rokko Island.

#### Accreditation & Programmes

Canadian Academy is approved by the Japanese Ministry of Education, accredited by the US-based Western Association of Schools and Colleges (WASC) and the Council of International Schools (CIS), and certified to award both the US high school and International Baccalaureate diplomas.

Canadian Academy offers an advanced college preparatory education based on International Baccalaureate programmes taught in English. In high school, students can take either the full Diploma Programme, or certificates in individual Diploma courses.

CA is authorized for both the Middle Years Programme (MYP), taught from grades 6 to 10, and the Primary Years Programme (PYP), taught from age three to grade 5. CA and the IB provide the transferable education that international students require.

#### Students

The student body is made up of as many as 40 different nationalities with about 25% being North American, 11% European, 38% Japanese and 26% representing the rest of the world. Approximately 18 high school students live on campus in our dormitory.

The current enrollment is approximately 630.

#### Facilities

Canadian Academy's nine-acre campus is a purpose-built facility, opened in 1990 on Rokko Island in Kobe.

CA's facilities include not only fully equipped classrooms, science laboratories, multi-purpose rooms, a fitness center, and specialty teaching areas designed with modern educational needs of the students in mind, but also two gymnasiums, and two theaters.

CA is the center of students' daily lives. The school itself is ideally located in the residential area of Rokko Island, a modern urban center, which also boasts a hospital, parks, shops, restaurants and other schools.
