

Axross Co., Ltd.

Company Description

Beyond IT Frontier

— その先のITへ —

AGILE DEVELOPMENT

In order to provide high quality systems in a speedy manner at low cost and to make the greatest contribution to the improvement of business efficiency and business reform of companies and government offices, Axross is implementing high efficiency development using the ultra-fast development tool "GeneXus", which is trusted worldwide, and agile methods.

All members of Axross, including representatives and directors, are former IT engineers.
A group of technology specialists who are broadly familiar with both new and old IT technologies.
We have a lot of experience in building a backbone system, a large scale EC site, a portal site, an SNS application, IOT, Cloud, AI etc.

GLOBAL RECRUITMENT

Our Company has been growing steadily since its establishment.
We will continue to recruit human resources over the medium to long term with the goal of increasing the number of employees to 1000.

We also aim to achieve a high level of diversity, in which Japanese and non-Japanese are employed equally. If you are interested in Our Company, please apply.
