

IWAKI CO., LTD.

Company Description

World's leading brand of fluid control equipment focused on chemical pump development.

Products

Pumps Line Up

- **Magnetic drive pumps**

Our magnetic drive pumps are available in a wide range of sizes and configurations. With this rich line up and performance, we remain a global leader of magnetic drive pumps.

- **Motor driven metering pumps**

Our metering pumps are designed for a broad range of applications, and are manufactured to the highest quality standards to exceed even the toughest customer expectations.

- **Electromagnetic metering pumps**

Diaphragm type electromagnetic metering pumps with multi-voltage power source, high resolution, and digital controller.

- **Pneumatic drive bellows pumps**

Numerous sizes are available in our high purity bellows pump series which are ideal for the semiconductor industry. The proven design and manufacturing quality ensures high purity, long service life, and are recognized as an industry leader.

- **Rotary displacement pumps**

The world's first chemical gear pumps equipped with fine ceramic gears. Due to their remarkable efficiency and compact design, these pumps are in wide use in hundreds of varied applications.

- **Other**

Non-metal magnetic drive turbine pumps/Magnetic drive turbine pumps/Metallic centrifugal magnetic drive pumps

System Products

- **Water Quality Control Devices**

Our system products that contribute to low power consumption and environmental preservation. These products solve difficult problems of fluid transfer using fluid control, water quality control, remote monitoring devices etc.

Company Details

Head Office

Japan

Main Business

ケミカルポンプをはじめとする各種流体制御製品の開発・生産・販売

President

藤中 茂

Established

1956年4月10日

Capital

10億4469万1100円

Number of Employees

501 - 1,000

URL
