

Laurus International
School of Science

Laurus International School Co., Ltd.

Company Description

Laurus International School of Science, the First International Science School in Japan

- **Primary School (6-12 years old)**

Our education programs are in line with global standards and are crafted by specialized teachers and curriculum developers. With our high educational standards, we nurture those who will go on to play active roles globally.

- **Kindergarten (3-6 years old)**

Divided into 3 grades, children can learn sophisticated English abilities.

Based on Science and literacy, children give a presentation in science class when they graduate. We provide a balanced education, including mental and physical development through PE classes.

- **preschool (18 months-3 years old)**

by providing a warm, welcoming environment we create an ideal place for young students to explore and learn. Students are guided in the acquisition of important social skills, focusing on politeness and good manners. We provide a safe environment to help students grow both physically and emotionally.

<Science Inspired Curriculum>

Children are born scientists. They brim with a natural curiosity of the world around them. At Laurus International School of Science, our curriculum gives students opportunities to think scientifically and create their own hypotheses as they are guided through exciting experiment-based educational experiences.

<Cambridge Curriculum>

Laurus International School of Science was registered with Cambridge Assessment International Education in 2019.

Cambridge Assessment International Education is a non-for-profit department of the University of Cambridge, providing international education programmes, examinations and qualifications to 10,000 schools in more than 160 countries. Its qualifications are accepted and valued by many leading universities and employers around the world.

We are also planning on establishing middle and high schools in the future. Any student studying the Cambridge education programming can continue with our school through to university, or transfer to any international education programme around the world.
