

KEBA Japan Co., Ltd.

Company Description

Who we are

Founded in Linz in 1968, KEBA today is an internationally active company that creates its success from technological innovations, the highest quality requirements, and the dynamism and enthusiasm of its employees.

KEBA works on new developments and industry solutions with the objective of creating sustainable competitive advantages for its customers.

Mission

"Technologies of KEBA help people to make the world of life and work easier."

For years, KEBA has stood for innovative automation in a variety of industries. We want to shift these sophisticated solutions even more in the service of people. Not just the benefits themselves, but rather the simple access, the convenient use take center stage.

With the claim "Easy to use", our products are consistently focused on the needs of the user and thereby create the optimal connection to technical solutions.

Vision

We focus all of our thinking and acting on the world of tomorrow:

Only those who have the vision can create and contribute to innovations.

Every day we find new solutions that simplify existing processes, make them faster, or result in entirely new applications. We sense trends and develop trendsetting solutions for defined industries.

Clear unique selling propositions inspire both our customers and the users.

- KEBA provides advantages for its customers through optimized complete solutions.
- KEBA products stand for "easy-to-use".
- Innovation and creating value are the basis of our sales success.
- In selected segments, KEBA is market leader.
- We have consistently continued our internationalization through expansion and founding of new subsidiaries.
