
C.C. Test

Company Description

In 1975, we were the first Japanese recruitment agency to open in the UK. Since then, we have opened offices in Japan, Singapore, Malaysia, Indonesia, Thailand, Korea, Vietnam, India, UK, Germany and USA.

For many years we were employed by Japanese corporate clients as a leading provider of Japanese staff who had put down roots abroad.

Nowadays we have a wider remit, finding staff for not only Japanese but also multinational clients across the globe.

We continue to evolve aiming to become the leading recruitment agency in the world with an internationally recognised brand.
