

Sentree KK

Company Description

Sentree K.K. is a growing IT company based in Tokyo, Japan working with a range of exciting multi-national clients such as award-winning architects, video production companies, product designers, interior designers, private schools, and ad agencies. We help get technology out of the way so clients can focus on their creative business vision and provide a reliable, trustworthy technology foundation upon which creative business leaders can build winning teams.

Brave and creative entrepreneurs needing a strategic IT blueprint to achieve their creative vision come to Sentree K.K. We like to solve problems for a diverse group of multi-national teams and we're attracted to working with creative people because we're creative too. We strive for continuous improvement because we're lifelong learners and value intelligent and curious individuals.

We are growing more quickly than ever before.

Up until now, digital transformation has been overused marketing speak relegated to actually being done by a select few leading organizations. Now, given the demands of increased efficiency from a remote and hybrid workforce, even small and medium sized companies in Japan have realized that digital transformation is critical to their survival and needs proper investment in the tools and processes to lead this change.

These new roles at Sentree provide you the career opportunity to craft these critical workflows end to end. You are not working on just a small siloed piece of the solution, but are crucial in shaping the full result end to end. Capable early entrants to our team in this period of massive growth will find unprecedented career opportunity.

If you are excited to be in the centre of Tokyo, in one of the best places in the world to live, work and play, take a look at our openings!

Our Shared Values

Empathetic Collaboration

We actively listen and empathize, understanding the challenges and perspectives of both clients and colleagues.

Embrace Critical Thinking

We encourage smart, practical solutions that make sense, fostering a culture of thoughtful problem-solving among our team and for our clients.

Take Decisive Action

We prioritize swift action, ensuring our team and our client projects benefit from timely and respectful decision-making.

Sharing and Growing Together

We commit to sharing knowledge and skills within our team, enriching our workplace while also addressing the practical and emotional needs of our clients and co-workers.
