

Edmund Optics Japan Ltd.

Company Description

Edmund Optics® (EO) has been a leading global manufacturer and supplier of optics, imaging, and photonics technology that has served a variety of markets including Life Sciences, Biomedical, Industrial Inspection, Semiconductor, R&D, and Safety and Security since 1942. EO designs and manufactures a wide selection of optical components, multi-element lenses, imaging systems, and optomechanical equipment, while supporting original equipment manufacturer (OEM) applications with volume production of stock and custom products. The company employs over 1,000 employees in more than nine countries across the globe and continues to expand.

EO takes pride in helping customers from prototype to volume production, and specializes in creating cost-effective solutions that meet our customer's specifications, timelines, and budgets. Whether requirements include stock optics, a build-to-print custom optical component, expert application engineering to optimize the design, or a completely custom design to customer-supplied requirements, EO's engineers can create ideal solutions for each unique optical challenge. Every step of the way, Edmund Optics® is committed to ensuring product and procedural quality.

Company Details

Head Office

Japan

Main Business

光学部品・光学製品の製造販売、及び同製品の仕入輸出業務

President

ティモシー・ポール・ケネディ

Established

1995年

Capital

8600万円
