

DC ASIA Ltd.

Company Description

Being A Bridge For Data Center Market

With the surging boom of IoT and Big Data, the Data Center Market is expected to grow continuously. DC ASIA works closely with Data Center Market with the following 3 core business:

Green IT Business

Help improve operation efficiency by providing Power, Cooling, DCIM solutions to address data center challenge.

Mission Critical Training – DCPRO

Localize global-standard training program by Data Centre Dynamics and deliver by Japanese professional instructors.

News Media Platform – Data Center Café

Distribute global datacenter market update and technology trends to Japan market.

In October 2019, DC ASIA was reborn as wholly owned subsidiary of Kyodo KY-TEC Corporation. Under the KY-TEC group mission "Technology for People & Society", DC ASIA will keep on growing with Japan Data Center Market.
