

NAGAHAMA SEISAKUSHO LTD.,

Company Description

From May 2022, Nagahama Seisakusho celebrated 75th anniversary since foundation in 1948.

With the support of many customers, suppliers, and related companies, we could relocate the entire business base to "Nariai Minami No Cho, Takatsuki City" and started operations in August 2022.

From now on, we will be more active with a view to the 100th anniversary of our foundation and continue to adhere to the basic philosophy of "Customer First" to contribute for society with excellent technology, reliable quality products and services.

As new field of activity, we emphasize high precise balancing and spin-testing with that targeting rotating machine development based on our rotor balancing and dynamics experience for a long time.

We aim to enhance our after-service system and bases in overseas to support global activity of customers.

Also, We will continue to make cost-conscious and comprehensive efforts in all areas of manufacturing, including development, design, purchasing, and production.
