### Company Description

For more than a century and a half, Gardner Denver has been a trusted partner for the world's most demanding and ever-changing compressed air, pressure and vacuum needs.

Equipped with the industry's widest product breadth, Gardner Denver is an expert in diverse applications. By choosing Gardner Denver, you are becoming a part of a legendary brand that has more products in more applications than anyone else.

Gardner Denver is a leading provider of mission-critical flow control and compression equipment and associated aftermarket parts, consumables and services, which it sells across multiple attractive end-markets within the industrial, energy and medical industries. Its broad and complete range of compressor, vacuum and blower products and services, along with its application expertise and over 160 years of engineering heritage, allows Gardner Denver to provide differentiated product and service offerings for its customers' specific uses. Gardner Denver supports its customers with sales, service and technical support through an extensive network of factory-trained and authorized local distributors.

The Gardner Denver brand grew from a small business located in Quincy, Illinois, USA, nestled on the banks of the Mississippi River, to a diversified corporation operating around the world. What has not changed, however, is how we do business. Gardner Denver has stood the test of time by having a clear vision and set of values that define our culture. Our vision is to be the industry's first choice for innovative and application critical flow control products, services, and solutions through an intense customer focus and disciplined performance culture.
