

KPay Japan KK

Company Description

We build a complete merchant service ecosystem that accelerates growth for businesses of all sizes. KPay combined payment solutions with our financial technology platform that connects merchants to affordable business solutions that they need.

KPay is committed to facilitating digital transformation for merchants, who often face limitations due to high costs, and the lack of technological support and resources. We believe all merchants deserve to operate their business without distraction, and focus entirely on their growth and delivering value to their customers.
