

TransPak Japan GK

Company Description

TransPak delivers peace of mind by protecting our customers' key assets on their global journey.

For more than 70 years, TransPak has been a leading provider of custom packaging, crating, logistics, and design services. We operate over 65 global locations in 12 countries, employ 3,200+ team members, and have 2.5 million+ facility sq ft to serve our enterprise customers' needs.

CRATING

With crating locations around the world, TransPak has designed and built millions of crates. Our proprietary software, CrateMaker, and business systems allow us to bring technology and efficiency to protecting your products.

PACKAGING

We provide comprehensive design, engineering, testing, manufacturing, and fulfillment management of your custom and stock packaging.

LOGISTICS

TransPak is a premier provider of urgent delivery services and integrated supply chain solutions. We offer same-day, next flight out, expedited and scheduled air, ocean, road, and rail services in domestic and international markets, including warehousing and fulfillment.

DESIGN

An engineering-led organization, TransPak's world-class global design engineers work hands-on to design and test packaging utilizing our Global Design Center and in-house Package Testing Lab.

SUSTAINABILITY

From recycling and refurbishing crates, to transitioning to renewable fuel sources, TransPak is laser-focused on sustainability and eager to help customers reach their ESG goals.

TransPak is proud to be a TSA Certified Cargo Screening Facility, ISO 9001:2015 Registered, WBENC Certified Women's Business Enterprise, IATA Member, RTST (Rack Transport Stability Team) Member, and an ASTRA-WBA (Women Business Alliance) Member, as well as participate in the Open Compute Project (OCP), One Tree Planted, the Sustained Forestry Initiative, and the Forest Stewardship Council.
