

ThinkCyte K.K.

Company Description

THINKCYTE MISSION

Deeper insights, better treatments — a single cell at a time

ThinkCyte's mission is to provide scientists and biomedical professionals with a transformational single-cell technology that accelerates biological discoveries and enables the development of novel treatments and diagnostics through the integration of advanced hardware, machine learning, and biotechnology.

We strive to push the frontiers of human knowledge and understanding to shape the future of biology and medicine. Our values, philosophy, and drive are based upon the desire to accelerate the launch of innovative therapies and diagnostics to improve lives...one cell at a time.
