

CITIZEN

CITIZEN SYSTEMS JAPAN CO.,LTD.

Company Description

In keeping with our corporate philosophy of "Leading Technology for Humanity," our company continues to provide products and services that best serve the needs of people through small-sized precision technology that we have nurtured over many years. Our principal products such as printers and healthcare products are produced under a consistent management system from planning to development and manufacturing, providing higher functionality and greater reliability, seen and used by those around us.

Today, the world situation is changing with dizzying speed, and this is having a profound impact on people's lives and sense of values. Our business environment is also undergoing major changes, but we courageously take on challenges with flexible forward thinking. And we always hope to be friendly, useful, and beloved by the people we work with and serve.
