

SANDEN CORPORATION.

Company Description

We are pursuing the further development of next-generation air-conditioning systems that are friendly to people and to the earth. The Sanden Group's car air-conditioning system products, which are supplied from our overseas companies, are adopted by automobile, construction equipment, and agricultural equipment manufacturers all over the world. We contribute to environmental conservation and development of automotive industry by actively providing the innovative and high quality products such as electric compressors and heat pump systems which satisfy the requirements of vehicle electrification.
