

Johnson Screens Japan Ltd.

Company Description

Johnson Screens, a brand of Aqseptence Group, is the leading global provider of screening and auxiliary solutions. Our highly engineered and precisely fabricated products support various industries, including Water Wells, Environmental, Energy, Chemicals, Food and Beverage, and Mining. Because of this, almost every product and object around you was touched by one of our screens. With our vision of creating a world where protecting lives and our precious resources comes first, we collaborate with industries, governments, and individuals to achieve that shared goal. For almost 120 years, our products have helped protect lives by reducing harmful waste, providing clean water, and making the best use of our essential natural resources. Our success is based on the commitment and dedication of our Employees. Become part of our team and look forward to exciting challenges and interesting tasks in an internationally operating and growth-oriented company!
