

Epiroc Japan KK

Company Description

Performance to succeed today. Technology to lead tomorrow.

Epiroc is your partner for mining and construction equipment. Originating from the Mining and Rock Excavation Technique business area and the Hydraulic Attachment Tools division of Atlas Copco, Epiroc was formed to be a stronger ally for you. By building on proven expertise and performance with the same people and a bold new drive to make what's good even better.

Just like our name 'Epiroc' says, we want to be on top of things. Epiroc means "at or on rock," coming from Greek and Latin roots. It reflects our core business, our proximity to customers and the strength of our partnerships.

You can count on us to listen to your needs and respond with leading-edge solutions. You can call on us to keep your equipment running reliably with expert service. And you can choose us with confidence, knowing we are committed to safety, environmental and social responsibility in everything we do.

More than a manufacturer, we aim to be a collaborative partner that keeps its promises. We deliver the performance you need to maximize productivity every day — as well as the technology you need to compete in the future.
