

CommScope Communications Systems K.K.

Company Description

Now meets next

At CommScope we push the boundaries of communications technology to create the world's most advanced networks. We design, manufacture, install and support the hardware infrastructure and software intelligence that enable our digital society to interact and thrive. Working with customers, we advance broadband, enterprise and wireless networks to power progress and create lasting connections.

Across the globe, our people and solutions are redefining connectivity, solving today's challenges and driving the innovation that will meet the needs of what's next.
