

Brasil Bank Tokyo Branch

Company Description

About Banco do Brasil - Japan (BB Japan)

In 1972, more than 50 years ago, the first branch of Banco do Brasil in Japan was opened in Marunouchi, Tokyo, the center of the country's financial industry. Since then, we have provided all types of financial solutions to individual and corporate clients.

In line with the mission of offering financial solutions to its customers and leveraging fundraising to promote Brazil's foreign trade, BB Japan's business focus includes operations with individuals, legal entities and government entities, such as Embassies and Consulates.

Always seeking greater convenience for its customers, BB Japan has strived to develop products and services, such as multiple currency accounts, fast and secure overseas remittances, online transactions and the expansion of partnership services with other financial institutions. We currently offer a network of more than 65,000 ATMs affiliated with Aeon Bank, Seven Bank, Japan Post Bank and SMBC.

Faithful to our commitment to our customers, in addition to the business units in Tokyo, Nagoya and Hamamatsu, BB Japan also has BB Móvel, a car with an adapted structure similar to a small branch to take service to different cities in events, factories, dormitories, aiming to provide greater convenience and ease of access to banking operations.

BB sincerely thanks all customers for your continued trust and loyalty and maintains the commitment to expanding and developing useful services to make the daily lives of all customers easier. We hope to continue counting on your preference.
