

Cargill Japan LLC.

Company Description

Bringing access to life's essentials so our customers, communities and planet can prosper

We believe big companies can and should do good. It's in our purpose here at Cargill: to nourish the world in a safe, responsible and sustainable way.

We are a family company providing food, ingredients, agricultural solutions and industrial products that are vital for living. We connect farmers with markets so they can prosper. We connect customers with ingredients so they can make meals people love. And we connect families with daily essentials — from eggs to edible oils, salt to skincare, feed to alternative fuel.

Today, the need to make our food system more sustainable and resilient is urgent. Sitting at the heart of the global supply chain, we have a unique ability, and responsibility, to help. Through new innovations, strategic partnerships, and 159 years of experience, we help businesses grow, and communities and people around the world flourish — today, and for generations to come.
