

住商CRM株式会社

Summit CRM, Ltd.

Company Description

Trading company that contributes to society.

As a trading company that handles carbon related products and raw materials, Summit CRM, Ltd contributes to society by conducting business that integrate customers and suppliers through our product portfolio. We have an important mission to stably provide vital sources for society whilst delivering customer solutions and in an era where the world faces change in energy transition, executing our mission is ever important.

As a Sumitomo Corporation Group Company, we have a shared corporate culture of stepping ahead in dealing with change, creating new value, and broadly contributing to society. As society face new challenges and change, Summit CRM aims to contribute to all our stakeholders by enhancing our expertise, adding value to our existing business and building long-term relationships with customers through networks and knowledge that we have cultivated over the years.

The global society faces a challenge to meeting net zero to realize a sustainable society. In this transition, supply chains will face new challenges to maintain stability and Summit CRM aims to fulfill these demands whilst searching for innovation towards low emission solutions as a Sumitomo Corporation Group Company. Through our carbon business, we have collected and accumulated insight and experience from manufacturing sites to consumers and have the ability to stay ahead of the latest market trend. Summit CRM, believe that transition is a chance, and will keep on the challenge to develop a better future.
