

## Cadence Design Systems, Japan

---

### Company Description

Cadence is a pivotal leader in electronic systems design, building upon more than 30 years of computational software expertise. The company applies its underlying Intelligent System Design strategy to deliver software, hardware, and IP that turn design concepts into reality.

Cadence customers are the world's most innovative companies, delivering extraordinary products from chips to systems, chemicals to drugs, and specification to manufacturing for the most dynamic market applications, including hyperscale computing, 5G communications, automotive, mobile, aerospace, consumer, industrial, and life sciences.

We pride ourselves on creating and sustaining a company culture that drives innovation and business success. Cadence is recognized as a Great Place to Work around the world, including as one of the Fortune "100 Best Companies to Work For" over the last nine years.
