

Johnson Health Tech Japan

Company Description

Our company focuses and specializes in the designing, production and marketing of fitness equipment. Since the beginning in 1975, Johnson Corporation has used health, value and sharing as its management philosophy. Accompanied by this guiding philosophy, we have grown significantly in this demanding field and became the top manufacturer in Asia, and are ranked the 5th largest in the world. Johnson Corporation has established 18 marketing companies in the North and South America, Europe and Asia, with a distribution network penetrating over 60 countries worldwide. Johnson Health Tech Japan is rapidly expanding and looking for dynamic and talented people to contribute in the ongoing development of our products and brands: Our brands Matrix, Johnson, Vision, and Horizon and are targeted at the commercial, higher and middle home use markets. Providing the public with choice and high quality products, we have helped activate the global fitness trend and create a new sporting health fashion.
