Job Description

- Build and grow the careers of a team of network engineers
- Work with networking hardware and software vendors to deliver high value solutions
- Take ownership of installation, configuration, monitoring, documentation, and automation of network infrastructure and corporate systems
- Respond to complex issues and problems when necessary ensuring that all issues and problems are worked on until the issue is resolved. Conduct post-mortems capturing learnings and actions.
- Work closely with the Security team to improve the infrastructure security
- Mentor and coach junior engineers helping them skill up at every opportunity
- Establish documented procedures, policies and processes relating to the network and its governance
- Support the design, development, documentation, implementation, and operation of the network
- Maximize the level of automation and self-service features reducing manual toil and operational expense
- Provide visibility of network performance metrics
- Act as technical expert in a specific process or product area, conducting process reviews and initiating change in order to contribute to continuous improvement of services to internal customers
- Work with colleagues across the IT function

Required Skills

- Bachelor's degree (or equivalent) in Computer Science, Information Technology, or 5+ years of experience in related field
- Excellent communication and people engagement skills
- Agile/Scrum experience in delivering infrastructure
- Experience with deploying and operating Software Defined Networks, 10G/100G Network.
- Experience with enterprise networking equipment from Cisco, Juniper, Palo Alto and Aruba / or other vendors

Company Description

<p>RANDSTAD connects great people with great companies, making the right human connections to create winning teams. Randstad may be a recent name in Japan, but we've been supporting candidates and clients in Japan for more than 25 years.
 With humble roots in the Netherlands in 1960, Randstad grew from a small, local staffing company into a global leader in HR solutions, covering 39 countries. </p> <p>Randstad Japan, a premier HR Professional Services company is growing its Professionals (mid-career / executive search) recruitment division rapidly from 2014. We're looking for passionate, ambitious team-players who are ready to bring their career to the next level. With 117 offices located across Japan, a wide-ranging client network across industries and functions, Randstad is well-positioned to grow its recruitment presence in Japan.</p>
