Job Description

We are seeking a highly skilled **Fullstack Web Developer with a strong background in PHP** to join our team and take on the exciting challenge of building and maintaining complex, high performance systems.

Your role
As a self-motivated individual with excellent English skills, you will:

- Need proficiency in MVC Frameworks (**Laravel**), MySQL, JavaScript, and Linux
- Need experience with **APIs** using REST and **GraphQL**, as you will be expected to work on projects that utilize this technology.
- Be expected to work on a new project, maintain and update our current product line, and play a major role in the creation of new and exciting products and functionalities using your exceptional **PHP** skills.

Your Attitude and Character
- Able to take on various tasks and responsibilities is important in this position
- Being able to adapt to new technologies and methodologies.
- Clear communication
- Ability to follow direction are essential as you collaborate with your team to achieve business objectives while promoting solid engineering practices

Team & Working Environment
Team environment with members working both remotely and on-premise at the company head quarters.

For the right candidates, we can offer a truly exciting opportunity with a growing organization, where you really can make a difference, both within our company and within the industry in general. The position, responsibilities and compensation will be based on what you and the company can achieve and we will reward those who help us reach our aims accordingly.

We are currently looking for more experienced developers who can contribute across many domains not only as individual developers, but also add to architectural discussions and get involved in product delivery operations.

If this sounds like the opportunity you have been waiting for then we want to hear from you.

★Please respond with your resume and an introductory message telling us your expectations and why you are interested in joining our company.

Required Skills

Essential:

- Strong knowledge and experience with **PHP and Laravel**
- Experience working with **RDMS** (Ideally **MySQL**)
- An understanding of the principles of **Object Orientated Programming**
- Experience building **MVC** web applications
- Experience with JavaScript and **React**, preferably using **Next.js**
- Experience and good understanding of **Version Management** tools like **Git**
- Knowledge and experience of **Software Testing**

Desired:

- Experience developing **CSS/HTML5** standard compliant sites
- Experience administering **Linux** (Ubuntu) **Servers**
- Experience supporting various **client platforms** including **Windows** and **Macs**
- Familiarity with various **Open Source Development Tools** such as **Less**, **Twitter Bootstrap** and **Composer**

Company Description

株式会社シー・シー・コンサルティングは、バイリンガル転職のためのウェブサイト、「キャリアクロス」を 2000年9月に設立したオンライン求人広告運営会社です。「キャリアクロス」の運営を通して、主に日本市場で展開する企業へ、ウェブを利用した採用リソースを提供しています。

キャリアクロスは、グローバル企業が求めるバイリンガル人材に特化した求人情報サイトです。 最新のインターネットテクノロジー、ユーザーが使いやすいシンプルな操作画面、そして積極的なマーケティングを展開し、トップレベルのサービスを提供できるよう努めています。スタッフひとりひとりが、サービスや事業戦略について考えることができ、成果を重視した欧米スタイルの就業環境となっています。

CareerCross© is a trading brand of C.C. Consulting Co., Ltd. a group company of JAC Recruitment Co., Ltd. (2124:JP).

Formed in late 2000, C.C. Consulting Co., Ltd.is the parent company of CareerCross, a bilingual web-based recruitment resource, serving the Japan focused business community.

CareerCross is one of the leading online job-boards for bilingual candidates, serving the Japan focused global business community. We combine the power of modern internet technologies, simple interfaces and pro-active marketing to ensure top level service.

Our office is based conveniently close to Jimbocho station and our staff are a mix of Japanese and foreign professionals. We offer a western style results-oriented working environment, where individuals are encouraged to participate in developing our services and business strategies.
