Job Description

Executive Summary:

- Solid Cisco Unified Communications Manager and Enterprise Voice Operations and Engineering experience.
- The position is to fill in the role of regional Cisco Voice Engineer supporting L1/L2 of Operations and Engineering.
- The role includes migration, upgrades and deploying of Cisco CUCM / CUC / Voice Recording system.

Job description:

- To work in a regional voice operations and project team that manages the low-level technical delivery of all voice infrastructure projects and provides governance to the organization strategic partners.
- To provide comprehensive product knowledge on Cisco voice technology.
- Ability to provide onsite support for user testing of CUCM and Cisco phone features and functionalities during user migrations.

- Ability to handle and coordinate phone deployments during user / floor / site migrations.
 - Ability to lead the project and provide High- and Low-level design.
 - Provide L1/L2 support for business impacting issues.
 - Work with internal and external project managers to report issues and deliver solutions.
 - Engage with the business and external vendors to deliver solutions.
 - Ensures user satisfaction by providing preventative maintenance, troubleshooting, and quickly
 - Participates in the design, development, and implementation of complex system engineering activities involving cross-functional technical support, systems programming, and data center capabilities.
 - This will include components of the assessment and optimization of system design and review of user requirements.
 - Able to provide and communicate technology solutions across differing audiences including technical, managerial, business executives, and/or vendors.
 - Leads the resolution process for problems where analysis of situations or data requires an in-depth evaluation of various factors.
 - Contributes to the determination of technical and operational feasibility of solutions.
-

Required Skills

Qualifications/Requirements:

- Japanese Language Proficiency N2.
 - Certified Cisco Voice technical certification.
 - Knowledge and Hands experience on CUCM, CUC, SME, Cisco Gateway (H323/SIP)
 - Moderate experience in the financial services field.
 - Information Technology degree and/or technology certifications preferred or substantial equivalent experience. Typically, 5-10 years of IT experience.
 - Moderate experience with Trading Floor and Telecommunication technologies; IPC/Cisco/Avaya
 - Must be able to interact in a professional manner with End Users; must possess excellent PC, communication, and organizational skills.
 - Candidates must be able to work both independently and in a team environment and be able to interact effectively with other team members, management, and clients.
 - Candidates must have strong interpersonal, verbal, and written communications skills
