Job Description

【主な業務】

各種産業向け高精度3次元データ事業の推進において、経営の視点を持ち、全社のビジョン実現に向け、自組織の中・長期的な方針・計画を策定し具現化していただくポジションです。

A pioneering HD mapping technology company with major automotive industry backing is strategically expanding its high-precision 3D mapping operations globally, marking a significant step in its growth and commitment to advancing autonomous driving capabilities.

■ Head of Software Development Department

- Management of planning and proposing projects aimed at creating new businesses leveraging the company's strengths
- Responsibility for planning and executing sales and profit budgets for contracted projects
- Management of contracted projects from planning to execution
- Management of in-house product development from planning to execution

- Fulfillment of approval responsibilities as defined by company regulations

Required Skills

Requirements

- Experience in being involved with contracted information system development projects
- Experience in or having challenged the development and operation of software intended for market sale
- Experience managing an organization of approximately 20 or more people in a supervisory capacity
- Experience in budget and performance management
- Business development experience through external partnerships (alliances, outsourcing, etc.)

Desired

- At least 2 years of UI/UX experience and above.
- Experience in Unity (C#) 3D applications designing.
- Front-End Development experience would be a plus.
