Job Description

What our client is looking For:

They are seeking a talented and motivated Mid-Level PHP Developer to join their growing team. This is an exciting opportunity to work on cutting-edge projects and contribute to the success of the company.

The ideal candidate is passionate about creating efficient and scalable web applications. They should have a solid foundation in PHP Development, possess excellent problem-solving skills, and thrive in a collaborative team environment. The successful candidate will play a key role in designing, implementing, and maintaining web applications that meet the stakeholders' needs.

Required Skills

必須スキル：

Required Skills:

- Minimum of 3 years of solid experience in PHP development or other programming language which can transfer to PHP.

- Strong knowledge of PHP web frameworks (such as Laravel, Symfony, or CodeIgniter).

- Proficient in HTML, CSS, Javascript or Typescript.

- Solid experience with relational databases (MySQL or MariaDB, or PostgreSQL).

- Understanding of version control systems, preferably Git.

- Familiarity with RESTful API development.

- Ability to write clean, efficient, and well-documented code.

- Strong problem-solving and analytical skills.

- Excellent teamwork and communication skills, with the ability to work independently.

希望スキル：
Nice-to-Have Qualifications:

- Experience with MongoDB or similar NoSQL databases.

- Experience with front-end frameworks (preferably Vue.js, also acceptable are React, Angular).

- Knowledge of containerization and orchestration tools (Docker, Kubernetes).

- Familiarity with cloud platforms (AWS, Azure, Google Cloud Platform).

- Understanding of DevOps practices and continuous integration/continuous deployment (CI/CD).

- Knowledge of cybersecurity best practices applied to development.

- Experience with Agile Software Development.
