Job Description

Under the direction of the person in charge, you will lead the overall fund management operations listed below.

-
- Fundraising operations for renewable energy funds (progress management, investor relations, execution, etc.)
 - Risk/return analysis of renewable energy investment projects, consideration of sale, and execution support
 - Fund management operations after fund formation (Annual budget creation, monitoring, investor relations, various reporting, etc.)
 - Consideration of measures to improve fund profits

[Assumed title]
Senior Manager

[Aim of Hiring]
Company is aiming to form a renewable energy fund in order to further grow its renewable energy business, and would like to hire a member who will be in charge of forming and managing the fund.

[Job flow after joining]

- Understand the status of renewable energy fund formation and the division of roles within the company under the OJT staff
- Depending on the fundraising situation
 - Work with related departments to develop the flow of fund management operations for renewable energy funds.
 - After fund formation, work with the team leader to perform fund management operations as described in the job description above.

Required Skills

[Requirements]

- Experience in fund management related work in the alternative asset field
- Practical experience in investment and finance
- Ability to construct financial models
- Ability to build relationships with internal and external stakeholders
- Business-level English proficiency

[Preferred Requirements]

- Work experience related to the renewable energy field
- Experience in forming funds
- Presentation skills

The person we are looking for is as follows.

- People who can act with integrity as a fund manager
- People who want to commit to the renewable energy industry
- People who have logical thinking skills
- People who are good with numbers
- A team that can communicate smoothly with related parties
- Self-starters who can move on their own
