Job Description

Role:

We are seeking a skilled Mobile Application Developer with expertise in iOS app development to join our team. The primary responsibilities include designing, developing, and maintaining iOS applications using Swift and Objective-C. The successful candidate will also be responsible for managing projects and leading junior developers to ensure the timely delivery of high-quality mobile applications.

Key Responsibilities:

- Develop and maintain iOS applications using Swift and Objective-C.
 - Manage projects and lead junior developers to meet project deadlines and deliver high-quality products.
 - Collaborate with cross-functional teams to design and implement new features.
 - Stay up-to-date with the latest trends and technologies in mobile app development.
-

Required Skills

Requirements:

- 5 years of experience in mobile application development, with a focus on iOS development.
 - Proficiency in Swift and Objective-C programming languages.
 - A bilingual candidate with JLPT N1 level proficiency.
 - Strong leadership skills with the ability to effectively communicate and collaborate with team members.
 - Excellent problem-solving skills and attention to detail.
-
