Job Description

Who Are You:

- You are enthusiastic about native Android development and eager to bring new levels of engagement and innovation to our Android applications.
- You are a good communicator, can work with members.
- You thrive in a product-oriented, and self-motivated work environment.
- You are passionate about building incredible experiences that touch vast numbers of users.

If these statements resonate with you, we want you on our team!

Why You Should Apply:

At our company, you'll have the opportunity to:

- collaborate across teams to define, design, and ship products that elevate our Android applications.
 - play a crucial role in designing and building robust applications for the Android platform, ensuring performance, quality, and responsiveness.
 - maintain code quality, test coverage, and automation to drive continuous improvement in our applications.
-

Required Skills

Requirements:

- 2+ years of experience developing Android apps.
 - 3+ years of team working experience.
 - Proficiency in a systems programming language, such as Java, Kotlin, etc.
 - Good understanding of code versioning tools such as Git.
 - Experience with mobile databases.
 - Japanese conversation skill.
-
