Job Description

Ecoplexus, a global renewable energy and energy storage developer & independent power producer, seeks a project development Financial / Business analyst to support our Japanese team. This role is based in Tokyo.

NOTE: Advanced Japanese language proficiency is required, so non-Japanese speakers need not apply for this role.

Your role is a critical component of Ecoplexus's business in Japan. Responsibilities include:

- Perform opportunity assessments, business cases, and detailed economic, financial, and risk analysis on potential and committed projects in collaboration with management, internal staff, and external consultants.
- Collaborate with permitting, technical, legal, and financial teams to support the project development process.
- Develop targeting strategy to secure additional projects and land in collaboration with management, internal staff, and external consultants.
- Report on market conditions and create compelling market analysis presentations.
- Manage and maintain data rooms, project summary and tracking tools, and project files.
- Compile and maintain project development update reports as required by management.

- Other development and support activities as may be required by the Company.
-

Required Skills

Experience:

- Experience working with energy, land, and/or real estate developers a plus
- Strong background working with internal and external stakeholders
- Multinational company experience a plus

Qualifications:

- Strong analytical capabilities and grasp of project development and finance
- Knowledge of the Japanese renewable energy market, renewable energy equipment, and project finance
- Ability to work independently and creatively solve problems
- High level of professionalism with attention to detail
- Excellent oral and written communication and presentation skills
- Superior time management and interpersonal skills
- Fluency in MS Word, strong Excel skills Powerpoint
- Professional working proficiency in Japanese required; fluency a strong plus.
- Professional working proficiency in English required; fluency a strong plus.

Educational Background:

- Minimum BA/BS degree required, advanced degree an asset
- Completed courses in renewable energy will be considered positively

Location/Territory: Shinjuku Tokyo

Travel: approximately 5-10%.
