Job Description

Join a fast growing, international space tech company in an industry that's expected to reach ¥8 Trillion by the early 2030s, and become a key figure in the company's mid- to long-term business growth planning!

You would be come part of an international and family-like team, and work directly with the company's executives and senior leaders.

Responsibilities

- Formulating overall business planning for both mid- and long-term growth
 - Planning, implementation and execution of company-wide projects and initiatives
 - Collaborating with cross-functional leaders to identify pain points and develop improvement strategies
 - Planning and execution of projects in collaboration with the local and national government
 - Competitor analysis and market research
-

Required Skills

- Experience as a strategy consultant at a consulting agency, or internal business planning
 - Previous experience in project management
 - Ability to conduct extensive market research and data analysis
 - Native level Japanese skills
 - Conversational level English skills or higher are an advantage
-
