Job Description

Join a fast growing, international space tech company in an industry that's expected to reach ¥8 Trillion by the early 2030s, and become a key figure in the company's mid- to long-term business growth planning!

You would be come part of an international and family-like team, and work directly with the company's executives and senior leaders.

Responsibilities

- Formulating overall business planning for both mid- and long-term growth
- Planning, implementation and execution of company-wide projects and initiatives
- Collaborating with cross-functional leaders to identify pain points and develop improvement strategies
- Planning and execution of projects in collaboration with the local and national government
- Competitor analysis and market research

Required Skills

- Experience as a strategy consultant at a consulting agency, or internal business planning
- Previous experience in project management
- Ability to conduct extensive market research and data analysis
- Native level Japanese skills
- Conversational level English skills or higher are an advantage

Company Description
