Job Description

Seeking an experienced Product Manager to oversee and enhance the web analytics service, focusing on both UI and API. The role involves developing strategic roadmaps, defining business specifications, and collaborating with various teams.

Client Details

- Join a forward-thinking and tech-driven organization that excels in providing innovative solutions and services. The client values creativity, teamwork, and a commitment to excellence, making it an ideal place for professionals looking to make a significant impact.

Description

- Develop and maintain strategic product roadmaps and execution plans.
- Create and communicate detailed business specification documents to technical and development teams.
- Conduct competitive analysis of analytics tools like Adobe Analytics, Amplitude, and Google Analytics.
- Collaborate with UI/UX designers using tools like Figma to create wireframes and participate in design reviews.
- Support QA activities, including user acceptance testing and bug triage.
- Analyze user feedback and feature KPIs to include in the product roadmap.
- Work closely with product owners, project managers, UI/UX designers, development, and QA teams to ensure successful feature delivery.

Job Offer

- Standard work hours from 9:00 to 17:30 with a 1-hour lunch break.
- 3 free meals at the cafeteria and access to the gym.
- Opportunity to work in a leading company.
- No requirement for Japanese language skills.
- Competitive salary and benefits package in a multicultural work environment
- Shops, restaurants, cafes, and large parks nearby.
- Long-term contract with high possibility to convert to permanent.
