Job Description

You will play a crucial role in our success by directly assisting clients to seamlessly implement SAP solutions. In this capacity, you represent the company, leveraging your extensive specialized knowledge, exceptional communication skills, and strong service orientation to ensure client satisfaction and a smooth project initiation.

Client Details

A prominent player in the IT solutions sector, this organization excels at providing businesses with advanced tools to effectively manage go-to-market initiatives. Their innovative solutions help streamline operations and boost profitability in today's dynamic business landscape.

Description

- Implement SAP add-on technologies and solution extensions for projects in Japan and the APAC regions, both remotely and on-site.
- Serve as a trusted advisor, offering best practice guidance and industry expertise across various verticals.
- Lead full project deliverables, including blueprint workshops, documentation, specifications, configuration, and support for testing and training.
- Understand and manage upstream/downstream process impacts, collaborating effectively with offshore teams.

Job Offer

- Attractive compensation packages.
- Engage with and contribute to projects with prominent global companies.
- Collaboration with teams worldwide for a truly global experience.
- Support for achieving career goals within the organization.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Argia Pradana at +81 3 6832 8642.

Required Skills

- Experience with SAP SD/MM module.
 - Participated in multiple lifecycle SAP implementations.
 - Excellent communication and client handling skills.
 - Japanese and English language skills (both written and spoken)
