Job Description

Lead demand/supply planning and inventory management for finished goods, optimizing inventory and enhancing customer satisfaction. Play a critical role in achieving DOS, Net Inventory, and cash flow targets.

Client Details

Our client is a leading biotechnology company with a reputation for innovative technologies - 25% of their products sold today

did not exist 5 years ago. They have a global presence and a strong engagement with the Japan market.

Description

- Achieve DOS and Net Inventory targets while supporting revenue goals and on-time delivery.
- Analyze and improve inventory and demand management processes, documenting procedures.
- Generate reports for inventory analysis and identify improvement opportunities.
- Adjust safety stock levels based on demand changes, collaborating with Sales/Service teams.
- Monitor demand forecasts, making adjustments in the forecasting process.
- Evaluate inventory performance monthly, providing root cause analysis and actions for optimization.
- Manage aged inventory and excess/obsolete stock, developing reduction plans.
- Update and create Standard Operating Procedures (SOPs) as needed.
- Foster strong relationships with internal teams and cross-functional departments.

Job Offer

- Competitive salary and benefits package.
- An engaging role with opportunities for career growth in a global company.

To apply online please click the 'Apply' button below. For a confidential discussion about this role please contact Mike Corbyn on +813 6832 8601.

Required Skills

- - Advanced skills in Excel, Access, PowerPoint, SAP, or other ERP/BI tools.
 - Independent and effective across global and matrixed organizations.
 - Continuous improvement mindset with the ability to influence across various levels.
 - Strong business, financial acumen, and command of English and Japanese
 - 4-year degree and 5 years of planning and operations/supply chain experience.
-
